REG. M. HUDSPETH

Once again it is Fair-time in Haldimand County and a warm welcome awaits you at this, our 88th. annual Caledonia Fair.

We trust that all former Exhibitors and many new ones will participate in our Fair, in order that our Society may more fully perform the service for which it was organized "The Improvement of Agriculture and Rural Life."

The gaiety of the country Fair, with a view of Ontario's finest livestock and home produce will be arranged for your enjoyment.

As your President, I extend my sincere thanks to the Directors, to the various Committee Members, to those who have made donations or bought advertising space in our catalogue, and to all others who have assisted in any way to make our Caledonia Fair a success and a credit to this fine community.

CATTLE SHEDS — TOOL HOUSES — SILOS

Typical Concrete Masonry designed house built for warmth, soundness and economy.

It even has a built-in milk house clean and sanitary—most efficient milk production standards.

A modern farm, first of all, must have modern buildings. The trend everywhere in replacing farm buildings or in expanding, is to build with concrete masonry units—the modern building material that offers all those features most wanted on a farm. It reduces fire risks, improves sanitation and insulation and almost eliminates upkeep and repairs. The records show that more than half the farm building replacements in the United States are made necessary by windstorms, fires or tornadoes. Concrete masonry protects you against all three. So play safe. Modernize with Vibrapac Concrete Masonry. Ask us for free bulletin.
